To Whom It May Concern,

This is to certify that Dr. Costas Sachpazis has served as "Reviewer" for *Journal of Hazardous Materials* on the manuscripts listed below. *Journal of Hazardous Materials* (ISSN 0304-3894) is an international journal published by ELSEVIER, with a 2012 Impact Factor\* of 3.925. The Journal publishes full length research papers, reviews, case studies and short communications which improve our understanding of the hazards and risks certain materials pose to people and the environment or deal with ways of controlling these hazards and associated risks.

Dear Dr. Sachpazis,

I affirm that each reviewer is carefully selected by the editors based on the reviewer's reputation as an established expert in their field of specialization. This letter is to confirm your outstanding contributions as a reviewer for Natural Hazards.

We hope to count on your valuable service in future.

Thank you very much.

Best Regards,  
Dr. Vladimir Schenk, Dr.Sc  
Editor-in-Chief  
Natural Hazards

**TO WHOMSOEVER IT MAY CONCERN**

This is to certify that **Dr. Costas Sachpazis** has performed review for the paper entitled “**Estimation of rock engineering properties using hardness tests**” in 2006 for the journal *Engineering Geology* published by Elsevier. His review was well received by both the Editor and the Authors.

Elsevier is the world’s largest publisher of medical and scientific literature. Based in Amsterdam, the Netherlands, the company has substantial operations in the United Kingdom, United States and elsewhere.

The journal is an international medium for the publication of original studies, case histories, and comprehensive reviews in the field of *Engineering Geology*. Included are all geological studies that can be relevant to engineering, environmental concerns and safety. The editors will consider papers on subjects such as aerial photograph interpretation for land usage, control of hazards from geological processes (earthquakes, floods, river diversions, land slips, etc.), assessment of geological factors affecting river behaviour, rehabilitation of groundwater supplies, field assessment of earthquake-generating faults, criteria for ground storage of hazardous wastes, techniques of reconnaissance, geological mapping for engineering, etc. To maintain high scientific level all papers will be refereed by the Editorial Board. An “Opinion section” is provided for timely expression of views and ideas. These submissions will be reviewed for reasonableness by an Editor-in-Chief and published as rapidly as possible. The objective is to produce a journal with international coverage that will contribute to the development of engineering geology as a profession.

Regards,

The 3<sup>rd</sup> International Conference on Civil Engineering and Urban Planning  
CEUP 2014

---

**Letter of Appointment**

May 4th, 2014

Dear Dr. Costas Sachpazis,

29 Dionysiou Str.,  
Ilion-Athens,  
Attica – T.K. 13122,  
Greece.

Due to your outstanding academic achievement, the Organizing Committee of the 3rd International Conference on Civil Engineering and Urban Planning (CEUP 2014) appoint you as the reviewer. As a reviewer of CEUP 2014, your efforts in reviewing will be greatly appreciated. We firmly believe that your effort will make the CEUP 2014 a success.

Best regards!

CEUP 2014 Organizing Committee
